

# Rite Aid Pharmacy

Coastal Construction's retail experience includes the development and ground up construction of pharmacy projects. Coastal understands the unique requirements and attention to detail needed for the successful delivery of pharmacy construction.

Additionally, Coastal has experience in the required due diligence process and we support our pharmacy developers throughout the entire development process. Our understanding and early involvement in the process assures a quality, expedited delivery that meets the financial demands of the pharmacy development real estate market.

Ground up structural steel construction. Included site improvements, structural steel, masonry, EIFS, siding & trim, architectural & EPDM roofing systems
