

Midcoast Federal Credit Union

Thomaston, Maine

The Midcoast Federal Credit Union was a ground-up project that included site balancing, excavation, and development.

The project included a glass tower entrance and a covered drive-thru teller/ATM.

Utilizing our extensive network of subcontractors we were happy to accommodate MFCU's request to use local contractors for the majority of trades used on the project.

Midcoast Federal Credit Union Thomaston, Maine

Ground-up construction for new
8,000 sq. ft. branch credit union.
